

# Dixie needs your help!

This beautiful 10 yr. old female cat was

abandoned and found starving in Nanoose Bay. Kind folks began to feed her despite her skittish behaviour. Eventually, she became more trusting and CatSpan was asked to foster her and find her a forever home. Dixie has arthritis in her right hip, most likely from a heavy blow, but with treatment her *Golden Years* can be pain-free.

Dixie is very affectionate and loving. All she wants is to be pain-free and have a safe and warm home where she will be a good companion to her human family. Dixie is the purr-fect companion for a single person or couple.

***Every dollar raised will go towards Dixie's hip treatment.***

## Please help Dixie!
